Cybersecurity Consultant at Capgemini and founder of multiple AI and SaaS ventures. Equal parts engineer and entrepreneur, building things that work, and looking to scale them at the intersection of deep tech and business.

PROFESSIONAL EXPERIENCE

Capgemini

Paris, France

Cybersecurity Consultant - Apprenticeship

From September 2025 to July 2027

- Conducted 50+ penetration tests across Web, API, LLM, Network, AWS and Active Directory environments for 30+ clients, by leading full audit lifecycles from scoping to delivery, generating €150,000+ in annual revenue.
- Built an AI infrastructure enabling secure code analysis and automated report, by deploying a fully on-premise LLM stack ensuring zero client data exposure, adopted by a team of 20 consultants and cutting reporting time by an estimated 30%.
- Acted as de facto project manager on a major key account, by coordinating scoping meetings, audit planning and billing cycles, leading to consistent delivery across 50+ missions per year.

SaaS

Paris, France

Founder

From January 2022

- Built and sold Autoinvoice, an invoice automation SaaS for freelancers and SMEs, by developing the full stack solo from zero, growing it to recurring revenue, then exiting for €10,000 via an online marketplace.
- Co-founded and led the technical side of [ShowYourBrand](#), a SaaS that helps your brand appears on ChatGPT, Claude and other AI and tells you exactly how to fix it, reaching 20+ paying clients in early access.

Developer & Tech Consultant

Remote

Freelance

From January 2025

- Delivered 200+ billable hours for clients (Recrutement-Success, Les chandelles, others...), by building full-stack web applications from scratch, handling deployment, SEO and maintenance, leading to €20,000+/year in freelance revenue.
- Contributed to Fedups' early technical infrastructure, by designing and implementing core backend systems during the company's founding phase, leading to a scalable architecture ready for production.

'BrandOrbit' International Marketing StartUp

London, United Kingdom

Co-Founder

From January 2025

- Co-founded BrandOrbit with a London-based marketing specialist as CEO, leading all technical and SEO strategy to acquire 10+ global clients through LinkedIn outreach and lead scoring systems.
- Assisted SaaS founders in establishing presence across Asian markets with focus on South Korea, implementing targeted market research and localisation strategies to support successful regional business development.

EDUCATION

Ecole Centrale d'Electronique Paris

Paris, France

Engineering Degree in Cybersecurity and Artificial Intelligence.
